

BOREDOM CITY

I'm so bored of boring boredom living in boredom city
I'm so sick of this and that ,growing old and getting fat
I'm so bored of boring boredom living in boredom city
I'm so sick of this and that, I really like my brand new hat

It's no fun
living in boring boredom city
It's no fun
living in boring boredom city

boring boring boredom city

boring boring boredom city

I'm so bored of boring boredom living in boredom city
I'm so sick of this and that ,growing old and getting fat
I'm so bored of boring boredom living in boredom city
I'm so sick of this and that, I really do miss my cat

it's no fun
living in boring boredom city
it's no fun
living in boring boredom city
boring boring boredom city

boring boring boredom city

I'm so bored of boring boredom living in boredom city
I'm so sick of this and that ,growing old and getting fat
I'm so bored of boring boredom living in boredom city
I'm so sick of this and that, chasing druggies with a bat

it's no fun
living in boring boredom city
it's no fun
living in boring boredom city
boring boring boredom city

boring boring boredom city

it's no fun
living in boring boredom city
it's no fun
living in boring boredom city
boring boring boredom city

STOUT

**i feel that weight
coming down on me
a slight hand of fate
tricking destiny**

**too tired to sleep
too tired to wake
too ill to cure
too ill for cure**

**repeating memories
already forgotten
chained to the past
got to let your legs go**

**that blur seems to sharpen
to clarity
got faith and hope
perhaps charity**

**And you're not my cross to bear
Why should I even care**

**it may cast doubt
be stronger than stout
i'm inside looking out
and I wanna be free**

**And you're not my cross to bear
why should I even care
it may seem clear as stout
but it always works itself out
and you're not my cross to bear
why should i even care
it may seem clear as stout
but it always just seems to works itself out**

REALITY

no no no no no no

**this reality is not my reality
this reality is not my reality
this reality is not my reality
this reality is not my reality**

**take a bite of an orange alert and spit it in their fuckin face
the reality they've built for me is all a part of the American scream**

**this reality is not my reality
this reality is not my reality
this reality is not my reality
this reality is not my reality**

**stupidity is not a school of thought so why's it being taught in school
to vilify, to justify, the mentality of us and them**

**this reality is not my reality
this reality is not my reality
this reality is not my reality
this reality is not my reality**

no no no no no no

**this reality is not my reality
this reality is not my reality
this reality is not my reality
this reality is not my reality**

no no no no no no
